In 2005, Congress passed The Deficit Reduction Act (DRA), a piece of legislation that impacted many areas of American government and commerce. The DRA included provisions that have an impact on Federal Health Care Programs. Federal Health Care Programs include: (1) Any plan or program that provides health benefits, whether directly, through insurance, or otherwise, which is funded directly, in whole or in part, by the United States Government; or (2) Any State health care program, as defined in section 1320a-7 (h) of this title. This organization falls under that definition.

The DRA changes that impacted Federal Health Care Programs became effective on January 1, 2007. Because this organization is a provider for a Federal Health Care Program, (Name of Organization) \_\_\_\_\_ is required to be compliant with several new requirements promulgated by the legislation including whistleblower protections. Specifically, this organization will train all staff on the provisions of the False Claims Act.
